Sir:

In accordance with my conversation with you last week I am glad to be able to report that for the present winter the University of Toronto is able to offer the following accommodation for an Officers Training Corps:

In the basement of the Medical Building locker accommodation for arms, accoutrements and uniforms is already available for 600 men, and space for 200 additional lockers, provided the Militia Department will erect them. An office for an Orderly Room can also be provided. There is, however, no covered accommodation suitable for drill purposes.

I hope that this will be regarded as satisfactory by the Militia authorities and that the request contained in my letter to the Minister of Militia at Ottawa of which you have a copy may be recommended by you to Headquarters.

Sir:

As you are possibly aware application has been made to Headquarters to permit the establishment in the University of Toronto of an Officers Training Corps. This permission has not yet been received, but we are expecting it very shortly. In view of this fact we are desirous to learn whether it would be possible for the Officers Training Corps to purchase a machine gun which we are informed is now at Stanley Barracks. I shall be glad if you will let me know also the price at which it might be secured if it is for sale?

The military situation and the duties of the
University in respect to it: an opinion emitted
by the Graduates Society of McGill University.

The opinion contained in the following paragraphs is the result of careful consideration. It embodies the conclusions reached by a careful weighing of opinions and of facts, voiced by persons consulted because their duties qualified them to speak with authority.

1- The necessity for immediately training a large number of Canadian men in the art of war, for home and foreign service, is recognised and accepted.

2- Since it is stated that officers will be greatly needed for active service, machinery should be provided at every University through which all University men, desiring to assume the responsibility of an officer, will have every opportunity afforded them for becoming trained and qualified as officers.

3- The professional training of men in the Faculties of Science, and Medicine, as well as the training of those who have qualities, such as knowledge of languages or of organisation, which would be useful in the various specialist military units must not be lost. Men possessing such training should be urged to enter units of the medical, engineering, artillery, transport or other specialist services, rather than to serve as officer or private in an infantry regiment.

4- There are undoubtedly in each University a number of men, without special training and without the wish to become officers, who intend to volunteer for active service. It is desirable that these men serve together as a Universities regiment, or if not sufficient in number, as one or two companies of some Battalion.

The existance of University Battalions or companies will satisfy the desire of University men to serve together and to be under the immediate control of their own officers.

5- The machinery provided for the instruction of officers will, with additions or omissions, suffice for the training of men for specialist and for combatant units up to the point where their instruction must be completed by the service which they intend to join.

6- The establishment in each University of a Canadian Officers' Training Corps would supply the first part of the training for officers, specialists and combatants. In addition, special ~~should~~ training ~~will~~ be provided at each centre by such specialist units as may be authorized by the Militia Department for each University, upon the responsible request of the institution concerned.

7- While men should be urged to qualify themselves so that they may give the best service of which they are capable, all possible instruction and facility should be given to those who, through opportunity or inclination, are determined to enlist for active service at once. — *Early facilities
+ special consideration of
each case —*

8- Arrangements should be made by which those taking a set course with an Officers' Training Corps will receive a certificate stating the nature of their training and certifying their qualification to become an officer in the Canadian militia.

9- It would be convenient were a camp arranged, to commence at the end of the present college year, probably in May 1915. In it would be gathered for a final six or eight weeks' training and examination all those University men, who, at that time, had volunteered for active service whether as combatants or as specialists.

Some assurance must be given by the Militia Department that on arrival at camp the necessary instructors and equipment will be available for the proper training of the men in infantry and other specialist units.

ADMINISTRATIVE REPORT UNIVERSITY OF TORONTO CONTINGENT C.O.T.C.

SIR:

I have the honour to submit the following report, called for by paragraph 13, C.O.T.C. Regulations, for submission to Militia Headquarters.

MEMPHIS. The Contingent has been organised by Faculties and Colleges in 12 companies each of 110 all ranks, and 1 supernumerary company of Faculties resident in the city.

Enrolments have greatly exceeded this establishment, but it has been deemed advisable to train the surplus as supernumeraries.

PERSONNEL. It is a matter of satisfaction to be able to report that the Corps is entirely officered by members of the University Staff, with the exception of some few senior students with previous military experience in the junior ranks. The establishment is complete and a large number of members of the University are waiting nomination to vacancies in the commissioned ranks as they may occur.

TRAINING. Drills largely in excess of the number required by Regulations have been performed by every member under qualified officers of the Corps. Weekly lectures on the Field Service Regulations have also been regularly attended by over 300 undergraduates.

ACCOMMODATION. Temporary accommodation has been provided in the Applied Science Building, but this can be offered only for one year longer, after which more permanent quarters will be required.

OVERSEAS CONTINGENTS. Since January, some 300 members of the Corps have joined the C.R.F. either in the 2nd or 3rd Contingents.

GENERAL. It is a matter of gratification that we have been able to secure the services of Professor Lang and Messrs. McVicar, LePan, Bramfitt, Massey, Coventry, Ryerson, and McPhedran, already qualified officers, in organising and training the Corps. Great credit is due them for the present state of efficiency.

I have the honour to be sir,

Your obedient servant,

President.

Toronto March 26th 1918

Administrative Report
Bruton County
C.O.T.C.

Sir,

I have the honor to submit the following report, called for by paragraph 73, C.O.T.C. Regulation, for a term of 5 months.

~~Present~~ ^{Under} the C.O.T.C. - organized & health & College in 12 companies, 116 all ranks, 12 officers, 1000 enlisted men. The enrollment has greatly exceeded the establishment, but it has been found desirable to train the surplus as supernumeraries.

~~Present~~ ^{Under} It is a matter of great satisfaction to be able to report that the Corps is entirely composed of members of the County Staff, whom you will find to be possessed of much military experience & to form a nucleus. The establishment is complete & a large number of members of the County are willing & anxious to receive in the command ranks as they may occur.

TRAINING. This largely a matter of
vitamin therapy. The number
required by Regulation has been ~~estimated~~
under qualified Officers of the Corps. ~~and~~ ^{and} ~~and~~
~~illustrates~~ ^{and} ~~and~~ the picture in the field where
Regulation have ^{been} ~~been~~ attended by an
officer independent.

ACCOMMODATION. Temporary accommodation
has been provided - the effect being to
but human beings only from 1000
days, after which more permanent
quarters will be arranged.

OVERSEAS CONTINGENT. This is now
over 300 members of the Corps have joined
the C.E.F. - others are to be in contingents

GENERAL. It is a matter of great difficulty
to get men to go to the front line
where there is a high
risk of being killed or
wounded in the
course of their
operations. The
main difficulty is
to get men to go to the
front line.

Memorandum for Officers.

Baggage.

Officers will be allowed to take cot, mattress, and trunk.

Servants.

Since no uniform but khaki will be worn, one servant should be able to look after the needs of three or four officers. These men are enlisted as privates and draw pay as such. Officers have found it advisable to advance to their servants only such money as is necessary to purchase cleaning material etc. needed in their work. A small gratuity is usually given in addition, but men should understand that no advances upon their pay can be made.

Cleanliness. All men proceeding to camp must have the hair cut short, and while there must shave every day. They should be especially warned to appear cleanly shaven upon the parade for embarkation or entraining.

Advance Party. Officers whose men are writing examinations on Friday, April 30th. and who therefore cannot supply a detail for the advance party, must make their own arrangements with other company commanders who can supply the necessary men.

CANADIAN OFFICERS' TRAINING CORPS

UNIVERSITY OF TORONTO CONTINGENT

FROM G. M. Smith At. 2nd University Company.

TORONTO, May 19

1915

TO President Falterer, Head O. T. C. O. T. C.

Sir,

I have the honor to make the following representation with regard to the 2nd University Coy C. S. F.

The recruiting in Toronto is at present satisfactory but it would be much brisker if the status of the company were officially and clearly determined. Most of our men are drawn from a class of potential officers, many of them already Certificate A men. In many cases they are anxious to know definitely, whether after training they may be recommended for commissions if they prove themselves efficient. Definite recognition of the company as an Officers' Training Corps on an active service basis would mean that many men who now have chances for commissions would join us and get into training at once. An O. T. C. company would thus be a most effective means of training at once a lot of our best material. Of course men enlisting now sign up for any purpose and with no conditions attached but the good men with even remote chances of commissions are hanging back. This would not be the case of the O. T. C. character of the company were officially recognized. If the idea is sanctioned we shall have no difficulty in keeping the University of Toronto platoons on the highest level.

CANADIAN OFFICERS' TRAINING CORPS
UNIVERSITY OF TORONTO CONTINGENT

FROM

TORONTO,

191

TO

I should therefore be grateful, Sir, if you will at once recommend to the Minister of Militia that the 2nd University Co'y be recognized as an Officers' Training Corps on an active service basis and if possible get the assurance that men properly qualified will be recommended for commissions after training either in the C.E.F. or in the British army. If such an assurance is impossible, it would nevertheless help considerably, if it were recognized that all training shall be on Officers' Training Corps lines.

If this is done, I feel confident from the interviews we have had that we can enlist potential officers and non-commissioned officers of the most efficient type.

Yours the Honourable, Sir,

Your obedient servant

G. M. Smith

Lt. 2nd Univ. Co'y C.E.F.

May 29th, 1915

Major J. R. Forbes,
Paymaster,
Niagara Camp.

Dear Sir:

Many thanks for your letter stating that if the sergeants of the C.O.T.C. who attended camp qualify for their rank a supplementary pay list will be made in their behalf.

Yours sincerely,

President.
